1	School reopening after lockdown	4	3	12	<ul style="list-style-type: none"> Where necessary the building will be deep cleaned before reopening. The school has been cleaned throughout the Summer Holidays. A fogging machine will be purchased to used each night in school as part of our cleaning processes. All staff are competent and instructed with regards to the procedures in place for the protection against infection from Covid-19. The Schools reopening plan has been created in line with current Government, Public Health, DfE guidelines. As part of the Governments guidelines All staff and students will have access to coronavirus tests via the NHS website. Where schools are not confident to return all at once the school may adopt an initial phased return which will see some staff and students returning to school at the earliest date of the 2nd September 2020. Strict guidelines have been produced and will be implemented by the school as far as reasonably practicable. (<i>The school reopening plan</i>) 	4	2	8	A plan is to be created for the building

					See School Plan for further details on how the school will manage and implement COVID safety measures including cleaning and management of resources, toilet provision and access and exit points.				
	Students mixing with other groups during Extra-curricular Provision	4	3	12	<ul style="list-style-type: none"> The school has assessed the need to resume breakfast and after-school provision. The school can offer breakfast/after-school provision from Monday 14th September. Students where possible will be placed in year group bubbles. A basic breakfast will be provided. Physical sports and activity groups will follow the same regulations as curriculum PE. https://www.sportengland.org/how-we-can-help/coronavirus https://www.gov.uk/government/publications/coronavirus-covid-19-guidance-on-phased-return-of-sport-and-recreation	4	1	4	
	Arranging and/or attending inappropriate Education Visits	4	3	12	<ul style="list-style-type: none"> No overnight UK or Overseas Educational Visits will be organised or take place until it is deemed safe to do so. The school Educational Visits Co-ordinator is responsible for arranging non-overnight domestic educational visits. All non-overnight educational visits will be arranged with both educational value and coronavirus in mind. All Educational Visits will be checked and approved by the Head Teacher prior to the trip taking place. Each educational visit will be recorded on EVOLVE and will be checked by the EVOLVE Officer. (Compliance/Local Authority) 	4	1	4	

7	<p>Unable to stop the virus from spreading</p> <p>Personal Hygiene</p>	4	3	12	<p>Transmission</p> <ul style="list-style-type: none"> The virus that causes COVID-19 is mainly transmitted through droplets generated when an infected person coughs or sneezes. This virus can be readily isolated from respiratory secretions. There are two routes by which COVID-19 can be spread: directly from close contact with an infected person (within 2 metres) where respiratory secretions can enter the eyes, mouth, nose or airways - this risk increases the longer someone has close contact with an infected person who has symptoms. Secondly, indirectly by touching a surface, object or the hand of an infected person that has been contaminated with respiratory secretions and then touching one's own mouth, nose, or eyes. <p>Handwashing</p> <ul style="list-style-type: none"> Handwashing is one of the most important ways of controlling the spread of infections, The recommended method is the use of liquid soap, warm water and paper towels. Always wash hands after using the toilet, before eating or handling food, and after handling animals. <p>Coughing and sneezing</p> <ul style="list-style-type: none"> Coughing and sneezing easily spread infections. Persons are encouraged to cover their mouth and nose with a tissue. Wash hands after using or disposing of tissues. Spitting should be discouraged. <p>Personal protective equipment (PPE).</p> <ul style="list-style-type: none"> PPE for cleaners as per MSDS and/or COSHH risk assessments PPE for cleaners when completing a Deep Clean The correct PPE should be used when handling cleaning chemicals. PPE is worn as per the cleaning chemicals COSHH risk assessment or MSDS. PPE is worn by First Aiders when required 	4	1	4
----------	---	---	---	----	---	---	---	---

8	<p>Unable to stop the virus from spreading</p> <p>General Cleaning</p>	4	3	12	<p>Cleaning of the environment,</p> <ul style="list-style-type: none"> • The school is cleaned with disinfectant. • All surfaces that the symptomatic person has come into contact with must be cleaned and disinfected, including: • Objects which are visibly contaminated with body fluids. • All potentially contaminated high-contact areas such as bathrooms, door handles, telephones, grab-rails in corridors and stairwells • Use disposable cloths or paper roll and disposable mop heads, to clean all hard surfaces, floors, chairs, door handles and sanitary fittings. • Monitor cleaning contracts and ensure cleaners are appropriately trained with access to PPE <p>Cleaning of blood and body fluid spillages.</p> <ul style="list-style-type: none"> • All spillages of blood, faeces, saliva, vomit, nasal and eye discharges should be cleaned up immediately (always wear PPE). • Intimate care provision should follow the same PPE requirements as per pre Covid-19. • When spillages occur, clean using a product that combines both a detergent and a disinfectant. Use as per manufacturer's instructions and ensure it is effective against bacteria and viruses and suitable for use on the affected surface. • Never use mops for cleaning up blood and body fluid spillages – use disposable paper towels and discard clinical waste as described below. A spillage kit should be available for blood spills. <p>Clinical waste.</p> <ul style="list-style-type: none"> • Always segregate domestic and clinical waste, in accordance with local policy. • Used nappies/pads, gloves, aprons and soiled dressings should be stored in correct clinical waste bags in foot-operated bins. • All clinical waste must be removed by a registered waste contractor. • All clinical waste bags should be less than two-thirds full and stored in a dedicated area. 	4	1	4	<p>A fogging machine will be purchased to be used in all rooms.</p>
---	---	---	---	----	--	---	---	---	---

9	Failure to Deep Clean the school after a member of staff or child is suspected of having coronavirus COVID-19	4	3	12	<p>Deep Cleaning.</p> <ul style="list-style-type: none"> The school is cleaned with disinfectant after someone with the suspected coronavirus COVID-19 has left to reduce the risk of others being infected. Where possible the area is closed and secure for 72 hours before the commencement of the deep cleaning. Suitable personal protective equipment is available Fluid resistant type IIR surgical mask Disposable gloves and apron Disposable eye protection (where there is a risk of splashing). Once used all PPE is disposed of Hands are washed before and after cleaning for at least 20 seconds. Handwashing facilities are available i.e. hot water, soap, hand sanitiser, paper towels etc. Pregnant staff or staff with a low immune system must take care and use the precautions available when dealing with bodily fluids <p>Cleaning of the environment,</p> <ul style="list-style-type: none"> Public areas where a symptomatic individual has passed through and spent minimal time, such as corridors, but which are not visibly contaminated with body fluids can be cleaned thoroughly as normal. All surfaces that the symptomatic person has come into contact with must be cleaned and disinfected, including: Objects which are visibly contaminated with body fluids All potentially contaminated high-contact areas such as bathrooms, door handles, telephones, grab-rails in corridors and stairwells Use disposable cloths or paper roll and disposable mop heads, to clean all hard surfaces, floors, chairs, door handles and sanitary fittings, following one of the options below: Use either a combined detergent disinfectant solution at a dilution of 1,000 parts per million available chlorine A household detergent followed by disinfection (1000 ppm av.cl.). Follow manufacturer's instructions for dilution, 	4	1	4
---	---	---	---	----	--	---	---	---

					<p>application and contact times for all detergents and disinfectants</p> <ul style="list-style-type: none"> • If an alternative disinfectant is used within the school, this should be checked and ensure that it is effective against enveloped viruses • Avoid creating splashes and spray when cleaning. • Any cloths and mop heads used must be disposed of and should be put into waste bags as outlined below. • When items cannot be cleaned using detergents or laundered, for example, • Upholstered furniture and mattresses, steam cleaning should be used. • Any items that are heavily contaminated with body fluids and cannot be cleaned by washing should be disposed of. • If possible, keep an area closed off and secure for 72 hours. After this time the amount of virus contamination will have decreased substantially, and you can clean as normal with your usual products. <p>Clinical waste.</p> <ul style="list-style-type: none"> • Waste from possible cases and cleaning of areas where possible cases have been (including disposable cloths and tissues): • 1. Should be put in a plastic rubbish bag and tied when full. • 2. The plastic bag should then be placed in a second bin bag and tied. • 3. It should be put in a suitable and secure place and marked for storage until the individual's test results are known • Waste should be stored safely and kept away from children. You should not put your waste in communal waste areas until negative test results are known, or the waste has been stored for at least 72 hours. • If the individual tests negative, this can be put in with the normal waste • If the individual tests positive, then store it for at least 72 hours and put in with the normal waste
